04. Staking: Rewarding the Community

05. Tokenomics

06. Technology and Security

07. Roadmap

08. Why GameFrog

09. Join the Revolution

10. Disclaimer

INTRODUCTION

GameFrog (\$GMF) is not just another meme token – it's a **MOVEMENT**. Inspired by the iconic figures of GameStop and the cultural phenomenon of Pepe the Frog, GameFrog aims to democratize financial opportunities in a world dominated by centralized institutions.

Rooted in the ethos of decentralization, fairness, and community empowerment, \$GMF represents the future of decentralized finance (DeFi), giving everyday individuals the tools to challenge the financial status quo.

CORE VISION

At the heart of GameFrog lies the principle of “David vs. Goliath” – empowering individuals to overcome the dominance of centralized financial systems.

By leveraging blockchain technology creates an ecosystem where fairness and financial freedom take center stage.

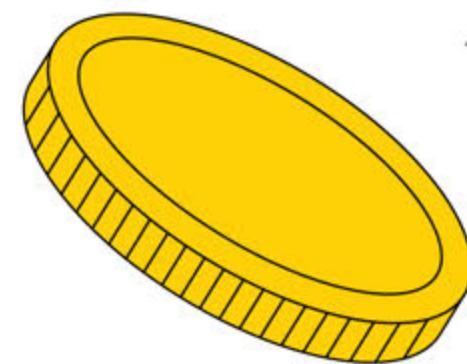

PRESALE MECHANICS: A STRATEGIC ENTRY

The GameFrog Presale offers early adopters a unique opportunity to secure tokens at a fraction of the post-launch price.

Key features include:

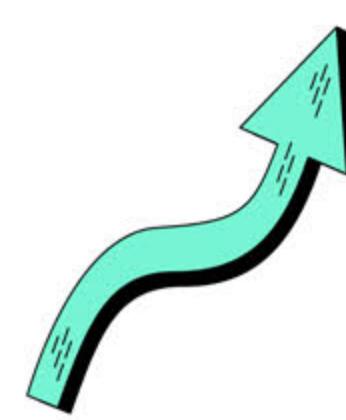

Entry Price

\$0.01–\$0.05 during the presale

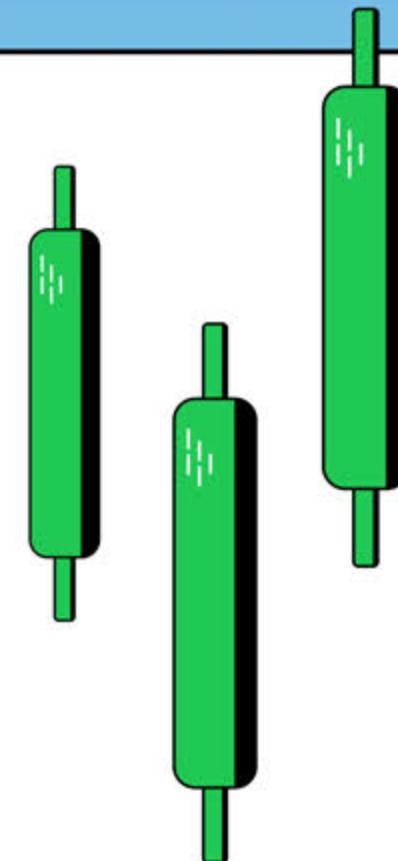

Launch Price

\$0.10, providing instant value growth for early investors

AI-Driven Stability

Gamefrog Pepe's intelligent market-making ensures stability and growth, with presale funds allocated to maintain upward price momentum

STAKING: REWARDING THE COMMUNITY

GameFrog introduces a robust staking mechanism to incentivize long-term holding:

Token Allocation

5% of the total supply (345 million tokens) reserved for staking rewards

Daily Distribution

Rewards distributed proportionally among stakers, ensuring fairness

Duration

Fixed staking program for 7 months (210 days)

Key features include:

Dynamic APY

Adjusts based on the total staked tokens, rewarding both early and largescale participants

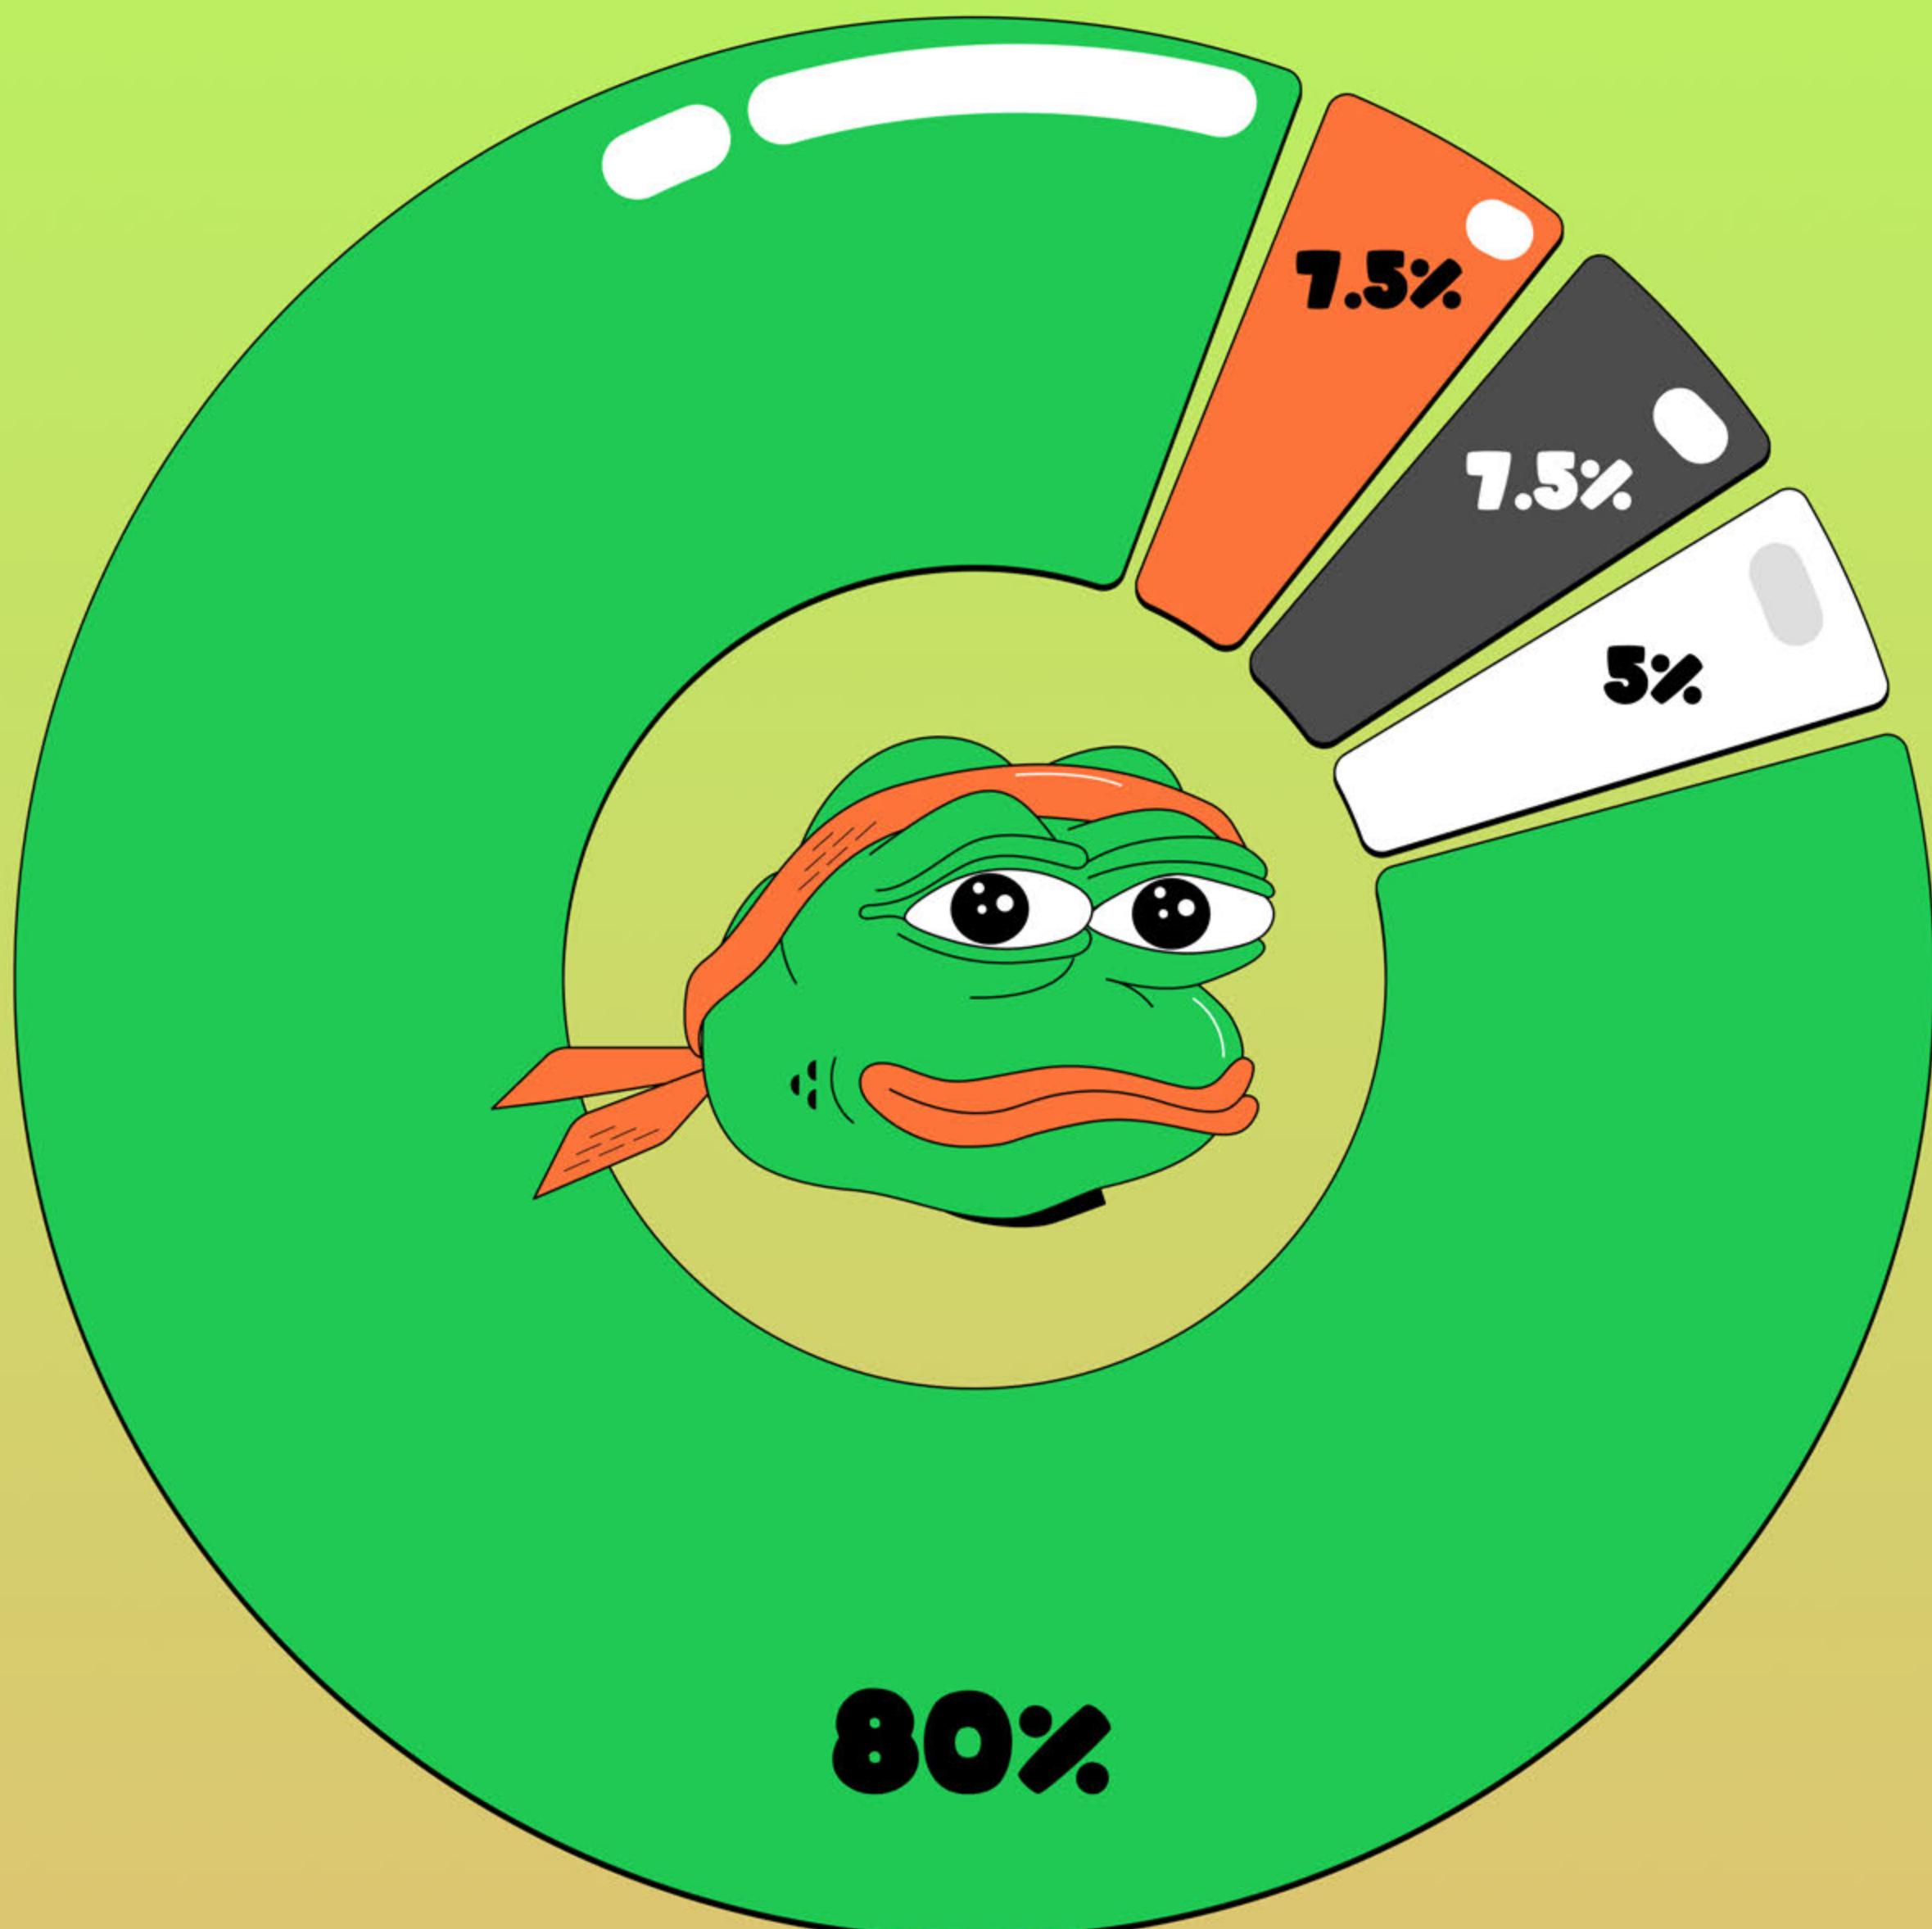

Anti-Monopoly Measures

Initial distribution ensures no single staker monopolizes rewards

TOKENOMICS

Total Supply: **6,900,000,000 \$GMF**

80% Presale

5.52 Billion Tokens

5% Staking Pool

345 Million Tokens

7.5% Marketing Reserve

517 Million Tokens

7.5% Liquidity

517 Million Tokens

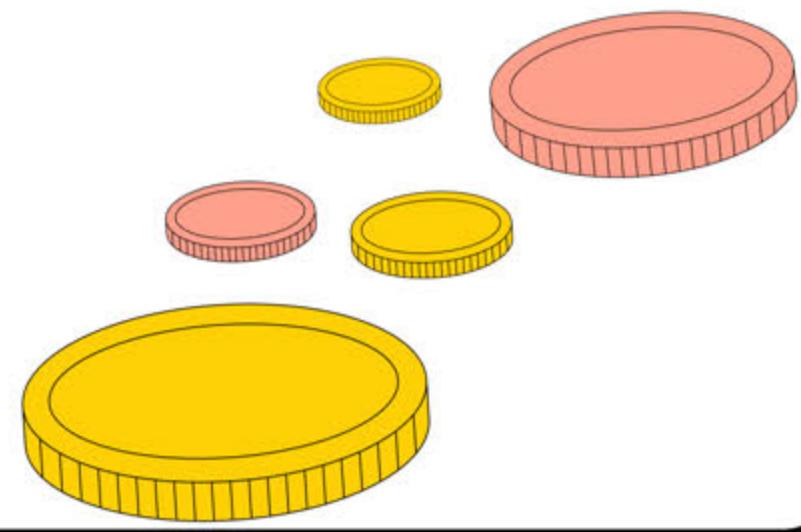

This allocation balances growth, liquidity, and marketing efforts while rewarding the community

TECHNOLOGY AND SECURITY

GameFrog's smart contracts are designed for scalability and security:

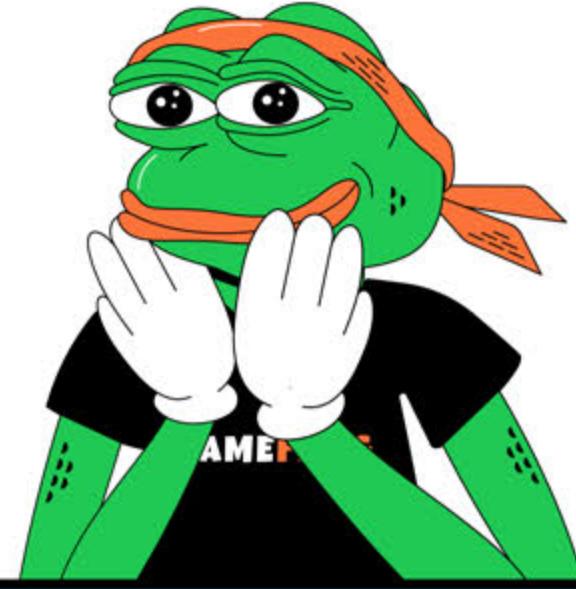

Presale Contract

Handles token distribution and initial fundraising

Staking Contract

Ensures proportional reward distribution and prevents exploitation

Token Contract

Implements core token functionalities like transfers and burns

All contracts undergo rigorous audits to ensure transparency and user confidence

ROADMAP

GameFrog's smart contracts are designed for scalability and security

Phase 1 ↗

Token presale and launch of **GameFrog**, Pepe's marketing campaign. Staking program rollout.

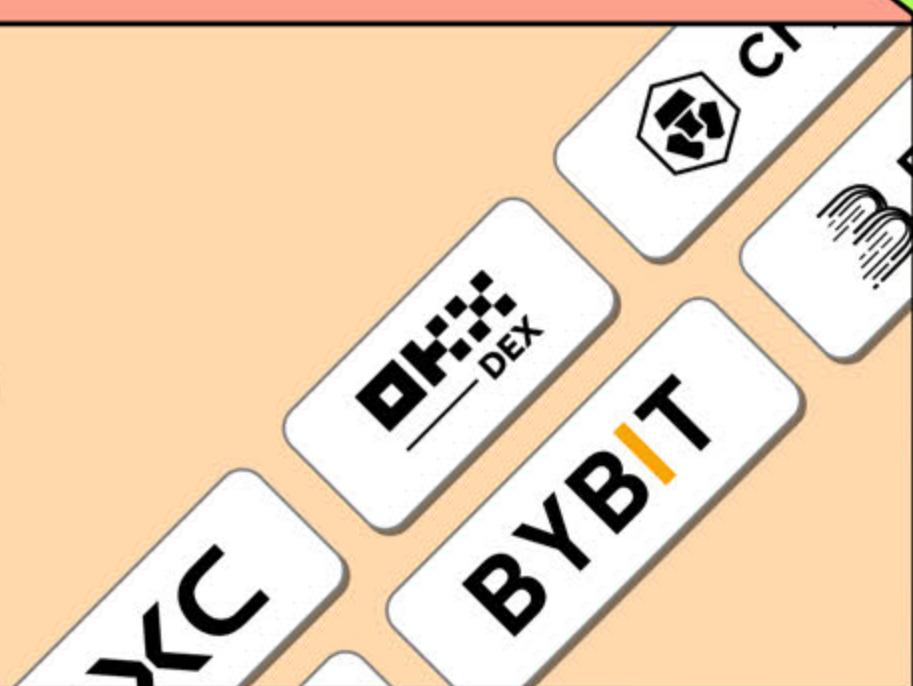

Phase 2 ↘

Token Launch

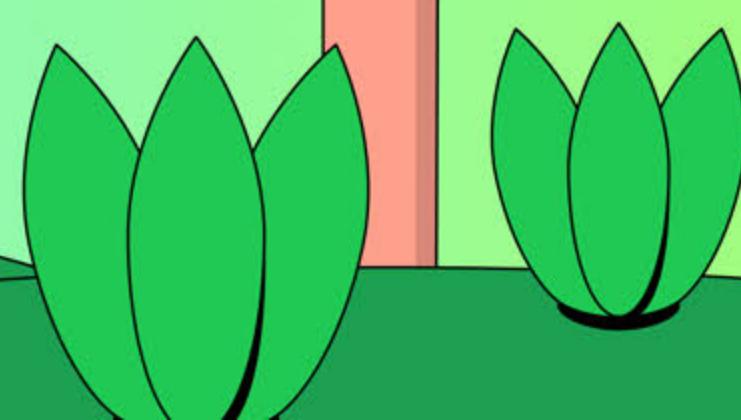

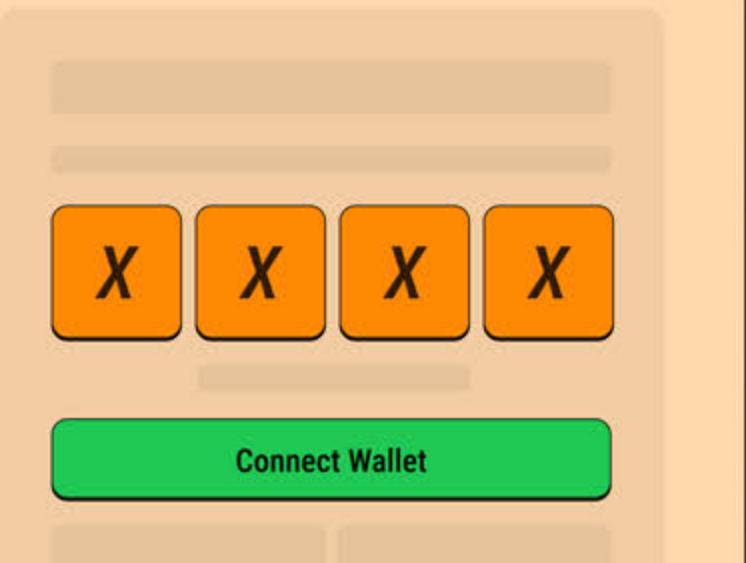

Phase 3 ↘

Listing on major CEX/DEX platforms and liquidity expansion

Phase 4 ↘

Introduction of governance features and further DeFi integrations

WHY GAMEFROG?

The GameFrog Presale offers early adopters a unique opportunity to secure tokens at a fraction of the post-launch price.

Meme Power

A blend of GameStop and Pepe ensures mass appeal.

DeFi Innovation

Robust staking and governance mechanisms empower users.

Community Focus

Designed to reward and engage participants at every level.

JOIN THE REVOLUTION

GameFrog invites you to become part of a movement that challenges the financial status quo. Secure your \$GMF tokens, stake your way to rewards, and shape the future of decentralized finance with GameFrog.

DISCLAIMER

This whitepaper is for informational and entertainment purposes only and does not constitute financial advice, investment recommendations, or a legally binding commitment. The content of this document is intended to outline the vision, concept, and plans of GameFrog (\$GMF) and should not be interpreted as an offer to buy or sell any financial product.

1. Risk Disclosure

Investing in cryptocurrencies and related projects carries significant risks, including but not limited to:

- Market volatility and price fluctuations.
- Loss of capital or digital assets.
- Technological risks such as smart contract vulnerabilities or hacks.
- Regulatory changes that may restrict the trade, use, or ownership of cryptocurrencies.

Investors should only invest funds they can afford to lose and conduct their own due diligence. It is highly recommended to seek independent financial, tax, and legal advice before making any investment decisions.

2. No Guarantees

GameFrog (\$GMF), its developers, team members, and partners make no representations or guarantees regarding the future performance, value, or profitability of the project. The use of \$GMF and participation in staking, trading, or governance activities is entirely at the user's own risk.

3. Decentralized Nature

GameFrog is a decentralized project based on blockchain technology. Decisions within the ecosystem may be influenced by community governance. There is no central authority responsible for actions or outcomes. Participants are expected to understand the workings and risks associated with decentralized platforms.

4. Regulatory Uncertainty

The legal frameworks for cryptocurrencies and DeFi projects vary by jurisdiction and are subject to change. Participants are responsible for ensuring that their activities comply with the laws and regulations of their country of residence.

5. Limitation of Liability

GameFrog, its founders, developers, team members, and associated parties shall not be held liable for any losses, damages, or claims arising from the use of this whitepaper, participation in the \$GMF project, or trading of \$GMF tokens. This includes, but is not limited to, direct, indirect, incidental, and consequential damages.

6. Forward-Looking Statements

This whitepaper may contain forward-looking statements based on assumptions and expectations that may not materialize. Actual results may differ significantly from those described in such statements, and no guarantees are made regarding future outcomes.

By accessing this whitepaper and participating in the GameFrog project, you acknowledge that you have understood and accepted the risks outlined above. GameFrog disclaims any responsibility for decisions made based on the information contained in this document.
